This is hard to believe that next month, the 18th, will mark one year. It feels like a nightmare. I wish you were still here so we can go have that dinner. You wanted to take me out and for us to talk about things. I remember when you said "why won't you call me?" You begged and begged me to. And just when I was going to, it was too late. I'm glad your friend told me about it when I called him. I knew he wanted me to know because he knew you would want me to know too. I miss you and you being here with me. I wish now I had took the time off to go to dinner with you when you asked me. Marie

And played with my grandson. You said he come right over to u and u held him. And said i guess he likes me . I said yes i think so. Then two months after that u had passed away. I should of called you months ago when you kept saying to me 📞 me. I wanna talk. And i regent not because u would have told me if something was wrong u always do. I remember when i moved in with you and u always hold me at night when we went to bed for work the next day. You always say. Your beautiful did you know that to me. And said how so much u cared and all. That u always cared for my kids as well. And do anything for them and me. U always. Came down to my place alot and stayed All night. On weekends and during the week. I always fixed you dinner when you came over and your favorite was goush u said i made that really good as well as when u called before you came over y say what's for dinner and ill tell you goulash .and you would be like yummy my favorite. I remember all the times we went bowling we both loved and movies at the theater. And mini golf the fair and the mall. And much more we did so many things together and im gonna miss those days. David i know you had heart problems because after we dated for awhile you told me all about it . you said you had a big hole in your heart and a leaky valve and also a enlarged heart. And when you were in your 20s you had a heart attack. And i remember you said you had to follow back up with your doctor. And later when you made that appointment and went you told me that you needed heart surgery . And i said when you said as soon as i made appointment to. You said you were in no hurry . Tha t you would eventually get it done. Had no insurance so needed a job with health insurance. See david if you would of follow the doctors order you still be here. And i wished you would of. This is why u had that heart attack in May at your job ready mix. Marie.I just wish you would listen you would still be here. Instead of being gone. It hurts david your gone. I still think about you all the time. And i remember you told me no matter what ill always have you r heart and you said i proisme you that. You told me i was so different from all the girls you meet in your life time. And that you loved that i was different. That made me feel very special. Marie

My dear sweet David that I have enjoyed our 7 years of relationship we had together was much greater than any other. WE had so much in common and enjoyed going out to our places. You always had a special place to take every time we go out. WE get in the car and you would say I got somewhere special to take you. But you always told me you care so much for my kids and yes I believe that because you were so good to them and took them places. I remember the time we went to the smokey mountains that I really enjoyed that time with you. I remember when we went to the aquarium to see the big fish and to sight see and the underground cave. And just knowing we were able to spend some quality time together meant so much to me as well as u told me the same. Love Marie Hardy

We are trying so hard to deal with your leaving. We were so glad that at least we got to spend Thanksgiving with you. I always thought that I would be the one going Home to be with Joe before you. Now your in Heaven with your dad and your aunt Sue and uncle Flipper. I hope you gave them as big a hug as you gave me the last time. We will miss you.

Hey love, I know you will always be in my heart, you left this world to soon, we had so many plans for our future. I will miss your calls, texts everyday. Your silly faces and all of your "I love you's," there wasn't a day that went by that you would show me how much love you have for me and I for you. The way you looked at me always made me feel beautiful. David you are my world and I will always love you more! Hey, you know what? Yeah you know and I do too. One day we will be together again. My heart hurts so much. Love you more always your love.
