I never really had the chance to get to know Larry as I was one of the younger siblings (half) but what I did know of him wasn't all that great. He left behind a lot of bad feelings and a lot of questions with no answers?? I'm deeply sorry for his family and their loss but I myself have known what loss feels like .

I worked with Larry for many years at A-1 Appliance Company. He was a great guy and very dedicated to his trade. He never shied away from a challenge and was always ready to help. My heart and prayers go out to his family for their loss.

I have known Larry since 1991 when we flew around in a airplane together trying to get him his license .He was a great guy ,easy going and easy to be around .He gave me a job when I needed it after loosing my job flying cargo , he thought me how to work on appliances and get around East Nashville lol.we grew very close during that time.We had many fun conversations about mechanics, life etc while turning wrenches or during lunch .We did loose touch towards the end probably mostly my fault ,Just being busy with life .Larry was a great person and friend to the end though .
