My first symptoms of ALS occurred in 2014, but was diagnosed in 2016. I had severe symptoms ranging from shortness of breath, balance problems, couldn't walk without a walker or a power chair, i had difficulty swallowing and fatigue. I was given medications which helped but only for a short burst of time, then I decided to try alternative measures and began on ALS Formula treatment from Tree of Life Health clinic. It has made a tremendous difference for me (Visit www.healthcareherbalcentre.com I had improved walking balance, increased appetite, muscle strength, improved eyesight and others.]
