Archie was a talented surgeon, dedicated to his patients and treated everyone with respect. He was very supportive to those of us who were starting our medical careers. We have lost a man who made this world a better place.*

“ *Dr. Agbunag was my doctor for several years. He was one of the finest and will be sorely missed. He did surgery on me and I had a great recovery and outcome. I always said he had the hands designed for a surgeon. He was gentle, kind and soft spoken. I would be remiss to not mention we credit doc with saving my husbands life. He contacted a bacterial infection from drinking water while on a hunting trip and was rushed to the old Madison Hospital. If not for Dr. A, who gave him the perfect antibiotic, he would not have survived. Ironically, I thought of him a couple of days ago and was certain he had retired. We lost touch after we moved from Davidson Co. I am sure Dr. A was greeted by many who credited their good health to him. Hope there are many Dr A's out there. Our sympathy to his family. Sincerely, The Caperton Family*

“ My favorite story is from 2004, I was 19, and a very new scrub tech at Skyline. The first time I met Dr. Agbunag he asked me my name, I said “Jessica” he said “no, I don’t like that, what is your middle name” I said “Nicole” he said “yes I will call you Nicole, I have a daughter in law named Nicole, I like that name” hahahaha so he always did call me Nicole. The only person in my whole life to call me by my middle name. The good doctor will be missed. Prayers for your family.

“ Dear Kay,
Our heartfelt condolences to you and your family for the passing away of beloved friend Archie. We have so many fond memories of your husband, who we consider a person with multiple talents and multiple interests. When we were in his company, there was never a dull moment. We would discuss sports, world affairs, the stock market, and even politics. He always kept up with new advances in the field of General Surgery. He exhibited leadership qualities by being elected Chief of Surgery and Chief of Staff. We vividly remember when four friends, Archie, Rivas, Vora, and myself, formed a group to sign up for a prison contract. We used to meet frequently, discussing the details of the contract, socializing, and enjoying snacks. We had some common patients, and they were very appreciative of not only his surgical skill but also his excellent bedside manners. Even up to recently, we reminisce about our association with Archie. We all will miss this incredible person, and we will remember him as a person of great character.

“ *My husband and I want to express our condolences to the family and our admiration for Dr. Agbunag. He was my light at the end of the tunnel several times from 1970 until he partially retired around 2014. His skills and his ability to sit down with us and explain the surgery until you were confident all would be ok was so comforting over all those years. What a rare quality. And what a good man. We could never thank him enough. Brenda and James Miller.*
